### Errata

Rappaport H, Khalil A, Halle-Pannenko O, Pritchard L, Dantchev D, Mathé G: Histopathologic sequence of events in adult mice undergoing lethal graft-versus-host reaction developed across H-2 and/or Non-H-2 histocompatibility barriers. *Am J Pathol* 96:121-142, 1979. Figure 11 should be 10, 10 should be 11, 15 should be 14, 14 should be 15, 19 should be 18, and 18 should be 19.

There was a typographical error made in the Table of Contents in the October issue of the Journal (Volume 97, Number 1). The title of the Rous-Whipple Lecture should read: "The Pathogenesis of Murine Systemic Lupus Erythematosus."

Hunninghake GW, Gadek JE, Kawanami O, Ferrans VJ, Crystal RG: Inflammatory and immune processes in the human lung in health and disease: Evaluation by bronchoalveolar lavage. *Am J Pathol* 97:149-206, 1979. Figures 3 and 10 were reversed. The illustration accompanying the legend for Figure 3 is Figure 10, and that accompanying the legend for Figure 10 is Figure 3.
